Currently all Bookmobile stops are located outside city limits with the exception of county nutrition sites or retirement communities where the Outreach Department judges Bookmobile service to be more expedient than Homebound delivery.

Each Bookmobile stop must serve, on a regular basis, a minimum of three households. Priority in scheduling will be given to sites attended by larger numbers of the community.

Decisions to continue stops which fall below minimum circulation rates of 40-50 items per hour will be made only in special circumstances such as geographical coverage, high patron count, or other library priorities.
