The purpose of the Drop-In-Library is to bring library materials to Child Care centers, Head Start Centers, nursery schools, and schools where geographical distance or transportation is a prohibitive barrier to library use. The main role of the Drop-In-Library is to serve as a preschooler's door to learning by encouraging young children to develop an interest in learning through improvement of their reading and listening skills. Also, the Drop-In-Library plays a role as an education support center. This is done by providing a rotating collection of books and materials in a variety of formats to all eligible centers as scheduling permits.
